

# Wedding Films *by* V T F I L M S

Relive your day.  
The moments, the words, the feeling.

## HI, WE'RE ELLIE & RICH

We're a husband-and-wife team who've been filming weddings for over 15 years. Between us, we've captured hundreds of days, all different, all meaningful.

We film weddings in a calm, unobtrusive way, letting the day unfold naturally as it happens. No staging, no interruptions, and no pressure to perform. Just honest moments, captured as they really felt.

The films we create are made to last. Something you'll come back to years from now and something your future family can watch and feel part of.

## HOW WE WORK

Most couples want a record of the day, without it ever feeling intrusive.

That's exactly how we work.

We blend into the day and quietly capture what's already happening, working closely with your photographer and venue team so everything flows naturally. We won't ask you to redo moments and when we do take you away briefly, it's kept relaxed, fun, and never for long.

Our focus is on what's real, not creating something that wasn't there.

## HOW WE CAPTURE THE DAY

### Two videographers all day

Both of us film your wedding, giving full coverage without it ever feeling crowded or intrusive.

### Morning preparations

With two of us there from the start, we can be in both places at once, capturing the build-up to the day from around two hours before the ceremony, including those final moments you don't see of each other beforehand.

### Ceremony and speeches filmed in full

Captured from multiple angles and delivered as separate full-length films.

### Coverage

From your morning preps through to around 30 minutes after your first dance

### Discreet lapel microphones

Used during the ceremony and speeches for clear, natural audio.

### Teaser trailer and social media reel

Shared shortly after the wedding.

### Your wedding film

A carefully edited film, around 15–18 minutes, shaped by the moments and words from the day.

### Private online gallery

Stream on TV, phone or tablet, and easily share with family and friends.

### Drone footage

Included where conditions allow.

Fully insured, including public liability.

With years of experience across a wide range of venues, we know how wedding days flow and when to step back. We're used to working closely with photographers, co-ordinators and venues to keep everything relaxed and running smoothly.

## A CALM PAIR OF HANDS ON THE DAY

### NEXT STEPS

### FULL DAY COVERAGE FROM £2,195

Subject to date & location.

There are no hidden extras or add-ons. Everything is included as standard.

A £400 deposit secures your date, with the remaining balance due four weeks before the wedding.

If our approach feels like a good fit, we'd love to hear about your plans and answer any questions. No pressure, just a friendly chat.
